

Hymix

# HyShine

Hardwearing with  
a designer finish

Decorative

# HyShine

Attractive with a long lasting finish, HyShine combines the strength and durability of concrete with modern design style. Customisable colours and stone options, ground and polished to shine, HyShine will give you statement flooring at a surprisingly cost effective investment.

Super tough, hardwearing designer flooring is now attainable with HyShine. Practical in retail and commercial spaces, this ornate concrete comes in many colours and with your choice of decorative stones. It is designed to be a statement piece for all applications. An alternative to traditional floors, this durable and easy to clean polished concrete is the contemporary solution for any size or shape space.

- Mantles

### On-trend

The look of terrazzo is envied by many - now this fashionable flooring is attainable, without the price tag. HyShine is either honed for a lasting matte finish, or polished for a high sheen finish.

### Less maintenance time

Unlike traditional flooring solutions, HyShine has a durable, densified surface that is scratch and chip resistant. Spills are quick to clean and stains are virtually non-existent.

### Save time and money

Quick install time and greater thermal mass in comparison to tile, means your new flooring project will be completed quicker and may lead to greater energy efficiency in the home, saving you time and money.
